Welcome to SIGLUFJÖRÐUR

Siglufjörður is Iceland's northernmost town and is a historic fishing town whose fame and fortune has always been linked to the ebb and flow of the fishing industry. A tiny shark fishing village in 1900, Siglufjörður soon became one of the largest towns in Iceland and the undisputed capital of herring fishing in the Atlantic. Although the herring has disappeared, the town bears the distinct imprint of "The Herring Era".

Siglufjörður is along with the community of Ólafsfjörður a part of The Municipality of Fjallabyggð, which came into being when the two communities were merged in 2006. The area maintains a flourishing cultural activity and is known for its dynamic and vibrant extracurricular activities. There are interesting galleries and artist studios to be visited in town.
